➤ **Making a mark on:**

Assisting foreign-owned companies pursue their U.S. strategic goals and helping create an infrastructure support system to attract and retain these entities for the region.

➤ **Pittsburgh pros and cons:**

The region's cultural attractions, from our sports teams to the symphony and Civic Light Opera, are a well-kept secret. Our region's resistance to change for the betterment of future generations, as well as the weather, are our downsides.

➤ **Still left to accomplish:**

Carrying out our firm's strategic plan to become a major player in the Pittsburgh to Erie corridor by building on our traditional service base and expanding our expertise in the SEC/public company, automobile dealership, and foreign-owned business niche areas.

➤ **Favorite cause:**

The YMCA of Pittsburgh. Through our programs for both youth and adults, we build strong kids, strong families and strong communities.
